

## A Robin

When a robin cocks his head  
Sideways in a flower bed,  
he can hear the tiny sound  
Of a worm beneath the ground.

## It's Spring

Bees soon will buzz,  
Rabbits soon will hop,  
Birds soon will sing,  
Frogs soon kerplop.  
Chicks soon will peep,  
Kids soon will play,  
Sun soon will shine,  
A fine spring day!

*Robert McCracken*

## I Dig, Dig, Dig

I dig, dig, dig,  
And plant some seeds.  
I rake, rake, rake,  
And I pull some weeds.  
I wait and I watch  
And soon, you know  
My garden sprouts,  
And starts to grow.

## Growth

A little garden flower  
Is lying in its bed.  
A warm spring sun  
Is shining overhead.  
Down come the raindrops  
Dancing to and fro.  
The little flower awakens  
And starts to grow.

## Dig A Little Hole

Dig a little hole.  
Plant a little seed.  
Pour a little water.  
Pull a little weed.  
Chase a little bug --  
Heigh-ho, there he goes!  
Give a little sunshine,  
Grow a little rose.

## A Kite

I often sit and wish that I  
Could be a kite up in the sky,  
And ride upon the breeze and go,  
Whichever way I chanced to blow.

## Kites

The March wind is calling,  
"Come fly your kite!"  
The wind is blowing  
With all its might.

The kites are tossing  
In the sky.  
The wind is calling,  
"Come fly up high."

## Seeds

Seeds are funny, funny things,  
Some have stickers  
Some have wings  
Some are big  
Some are small  
Some round and flat  
Some like a ball.  
Some are hidden inside of fruit  
Some in pods or underground roots.  
Some seeds are foods  
And good to eat,  
Like corn or beans  
Or nuts for a treat.

## Kites

Five little kites flying high in the sky  
Said, "Hi!" to the cloud as it passed by,  
Said, "Hi!" to the birds, said "Hi!" to the sun,  
Said, "Hi!" to an airplane--oh what fun!

Then whish went the wind,  
And they all took a dive:

One

Two

Three

Four

Five.

## Five Busy Honey Bees

Five busy honey bees were resting in the sun.  
The first one said, "Let us have some fun."  
The second one said, "Where shall it be?"  
The third one said, "In the honey tree."  
The fourth one said, "Let's make some honey sweet."  
The fifth one said, "With pollen on our feet."  
The five little busy bees sang their buzzing tune,  
As they worked in the beehive all that afternoon.  
Bzzzzzz! Bzzzzzz! Bzzzzzz! Bzzzzzz! Bzzzzzz!

## Here is the Beehive

Here is the beehive. Where are the bees?  
Hidden away where nobody sees.  
Watch and you'll see them come out of the hive  
One, two, three, four, five.  
Bzzzzzzzz... all fly away!

## Buzzing Around the Room

A bee is buzzing round the room,  
Buzz buzz, buzz buzz.  
A bee is buzzing round the room,  
Buzz buzz, buzz buzz.  
He'll buzz around the room once more,  
And then he'll buzz right out the door.  
And we'll all be glad when  
He is gone once more.

## The Itsy Bitsy Spider

The itsy, bitsy spider, climbed up the waterspout.  
Down came the rain and washed the spider out.  
Out came the sun and dried up all the rain,  
So the itsy, bitsy spider went up the spout again.

## Every Insect

Every insect (ant, fly, bee)  
Is divided into three:  
One head, one chest, one stomach part.  
Some have brains.  
All have a heart.  
Insects have no bones  
No noses.  
But with feelers they can smell  
Dinner half a mile away.  
Can your nose do half as well?  
Also you'd be in a fix  
With all those legs to manage:  
Six.

## Hug a Bug

Hug a bug,  
Hug a bug,  
But don't EVER  
hug a bee!  
It might sting  
your nose,  
your hand,  
or your knee.

## Little Bugs

A teeny little bug  
Goes climbing up the grass,  
What a lot of tiny little legs he has!  
I can see his eyes,  
Small and black and shiny.  
I CAN'T THINK how it feels to be so tiny!

## Bugs

I am very fond of bugs.  
I kiss them  
And I give them hugs.

## Bugs Come Out In Spring

Oh when the bugs come out in spring  
Oh when the bugs come out in spring  
I want to be outside watching  
When the bugs come out in spring  
I'll see some crawl; I'll see some fly  
I'll count how many go marching by  
I'll watch and see how many I know  
Of the bugs that come out in spring.

### Beetle

The beetle crawls on leaf and twig,  
Not caring that it isn't big.  
It eats its fill, and then, well fed,  
The beetle, its elytra spread,  
Does fly to other bush or tree,  
Where more morsels it hopes to see.

### Firefly

Firefly, firefly,  
Wow, how you glow!  
Under your body  
You light up below!  
Firefly, firefly,  
Wow, how you shine!  
At night in the dark  
I can see you just fine!

### Firefly

A little light is going by,  
Is going up to see the sky,  
A little light with wings.  
I never could have thought of it,  
To have a little bug all lit  
And made to go on wings.

## Fly

A fly flies by, quicker than the eye!  
On two thin wings, it darts up high.  
Those tiny wings can really fly!  
Beating 200 times a second - oh, my!  
The fly goes Buzz as it flaps in the air.  
The Buzz you hear are the wings going by!  
So if a fly ever catches your eye  
Don't ask why it buzzes - you now know why!

## Grasshopper

Hop, Hop, Hop  
My, what strength  
A grasshopper hops  
Twenty times its length  
Hop in the grass  
Or on a single blade,  
Hop in the sun  
Or hop in the shade.  
Farmer says, "Grasshopper,  
Stay off my crop!"  
There goes the grasshopper,  
HOP, HOP, HOP

## Crickets

What makes the crickets "crick" all night  
And never stop to rest?  
They must take naps in daytime  
So at night they'll "crick" their best.  
I wonder if they just take turns  
And try to make it rhyme'  
Or do a million crickets  
Keep "cricking" all the time?
